GREAT INLAND SEA.

The Father of Waters Spreads Over a Vast Country—A Territory Six Miles Wide and Forty-Five Long Covered.

St. Louis, May 17.—Advices from Mississippi river towns above here say that at 4:15 o'clock this morning a break occurred in the Big levee, at a point about two miles below the Hannibal bridge, and this was followed at 6:45 by a larger and more serious one above the bridge a short distance. The wildest excitement prevailed in Hannibal, as well as among the few farmers who had stubbornly remained in the bottoms. The two hundred men who had been engaged all night in the work of stopping seeps and placing bags of sand on top of the levee, tried to break the river back attempted to close the break, but without success. The more sensible farmers had removed all their live stock to the bluff, six miles distant, but a few remained until the moment of the calamity; consequently, hogs, cows and horses could be seen swimming in the flood until they came in contact with some obstacle, upon which their bodies would be tangled.

The smaller houses in the bottoms were wrecked. As yet no loss of human lives is reported. The territory now covered with water is forty-five miles long and six miles wide, with fifty thousand acres under cultivation. The depth of the water from one to ten feet. Consequently upon the breaking of the levee the river is receding rapidly. The tenants say that if the ground gets in favorable condition by the middle of June they can raise late crops. The loss at this writing is incalculable. The damage to railroad property will be great.

STRANGED BY FALSE TEETH.

A Victim of the Morphia Habit, During a Paroxysm, Sinks a Lower Set Into Her Windpipe.

INDIANAPOLIS, IND., May 17.—Mrs. W. D. Ligon, of Whitesboro, Texas, came to the Surgical Institute, in this city, a few days ago, to be treated for the morphia habit, and she was placed under the care of an experienced nurse. This morning, before she had arisen, the nurse discovered that she was suffering with a paroxysm, and summoned the physicians, but she struggled before any thing could be done in relief. It was then discovered that during the paroxysm a set of lower teeth had been dislodged and had been sucked into her throat, closing the windpipe. The lady was aged about forty-five, and comes of a wealthy family. Her remains will be shipped South for burial.

Fell a Thousand Feet.

WILKESBARE, PA., May 17.—Thomas Rowan, for many years employed as head man at the Son's Wilkesbore shaft of the Lehigh and Wilkesbore Coal Company, met his death at a late hour last night in a way most frightful. He had been leaning against a gate placed around the shaft to guard the opening, and not being locked, he went off in full headlong down through the shaft, a distance of over 1,000 feet, into a sump of water some fifty feet deep. In the fall both arms, by striking against the timbers, were severed from his body. Up to eleven o'clock this morning his remains lay in the sump, and it may be several days before they can be found.

Took His Own Medicine.

PITTSBURGH, PA., May 17.—Domestic difficulties caused Dr. James Orr, the dentist of this city, to end his life in a novel manner. Last night he partook of a hearty supper in his room, attended by his wife. He then went to bed, and at a late hour, about midnight, and awakening shortly after, discovered his master in the throes of death. Orr had put one of his rubber tubes into his mouth and sucked gas into his lungs, producing strangulation.

Conference of Dunkards.

SPRINGFIELD, May 17.—The great annual conference of the Dunkard or German Baptist Church will be held at Cerro Gordo, Platt County, Ill., May 20. There will be 15,000 members in attendance. The building will be erected to accommodate them. The Conservatives or Progressive branch of the Dunkard Church will hold its annual conference at North Manchester, Ind., May 20, where there will be 30,000 in attendance.

Slaves to Go Up.

PITTSBURGH, PA., May 17.—The National Store Founders' Association adjourned this evening after voting on the bill of the slightly advanced prices where possible, and in no instance to sell at lower rates last year. The Committee on the Formation of a trust reported unfavorably, but the committee was continued. The next meeting will be held in Chicago next February.

A Midnight Execution.

COLUMBIA, Mo., May 18.—At seventeen minutes after one o'clock this morning, Wm. George, the Kansas murderer, went through the trap-door in the execution room at the penitentiary. The prisoner mounted the scaffold with a firm step, and after a few moments he was executed.

The United Labor Party Nominates.

CINCINNATI, May 17.—The National Convention of the United Labor party today endorsed the George theory. Robert H. Cowdrey, of Illinois, was nominated for President of the United States, and W. H. T. Wakefield, of Kansas, for Vice-President.

Frost in North Carolina.

KNOXVILLE, TENN., May 17.—Information comes from the tobacco growing country of Western North Carolina that two-thirds or more of the young plants were killed by recent frosts. Vegetables and wheat were greatly damaged at numerous points in the mountains.

Killing Frosts.

QUINCY, ILL., May 17.—The frost of last Sunday night destroyed the small fruit in this county. Not only is the fruit killed, but the vines are also seriously injured. Tomato plants and early potatoes are also killed.

The Clarke Monument Project.

WASHINGTON, May 17.—Senator Sherman today introduced a bill to appropriate \$25,000 for the erection in Washington of a monument in memory of George Rogers Clark in recognition of his eminent services in the occupation and conquest of the Northwestern Territory.

Exploded Powder.

STOCKTON, N. J., May 17.—This hundred bags of powder exploded in a store recently here. One man was killed and several others injured. The store was destroyed. The report was heard twenty miles away.

SHOWERS OF BUGS

Fell in a Black Mass and Thickly Cover the Ground.

A Species Unknown to this Country—Strange Phenomena in Georgia.

ATLANTA, GA., May 18.—A few nights ago the inhabitants of Ninety-Six and those of the surrounding country for several miles were aroused from sleep. It was about 10 o'clock that a loud roar was heard, which the people believed was an approaching tornado. A short while later the noise became more distinct, and the air was filled with a moving black mass that fell in showers of bugs, covering the ground in many places.

The people were not alarmed, but they were startled. Large pine fires were built, in which many of the bugs were destroyed. Every night since at exactly the same hour there is a similar occurrence. The people now prepare for them by building fires and putting vessels of water to soak. They are not alarmed, but they are startled. FATAL QUARREL

Two Young Men Engage in a Deadly Fight in Night of a Sunday-School.

BLOOMINGTON, IND., May 20.—Word has just been received here from Washington Township of a sensational shooting scrape that will probably result in the death of Henry Carr. From particulars at hand it seems that Henry Carr and Vincent Farr, two young men much respected and of good families, had quarreled some time before, and while at Sunday-school this afternoon, they got into a dispute again, this time over a young lady. They each started home with their girls in a buggy, when angry words began to pass. Each jumped from his buggy and with thirty-caliber revolver began firing at each other, until five shots had been exchanged from each side. The loads exhausted, Farr caught hold of Carr and began beating him over the head with his revolver until Carr dropped to the ground.

It was not known that any shot had taken effect, but examination proved that one of the shots had entered the left arm, and is almost certain to prove fatal. This information produced great excitement among the Sunday-school that was standing by and mutely witnessed the tragedy. As soon as Carr fell to the ground Farr got in his buggy and rode off, not knowing of the gun-shot wound. Owing to the high standing of all the parties the excitement is intense. Farr's father is a candidate for the nomination of sheriff on the Republican ticket. Deputy Sheriff Payne left at 9 o'clock to-night to arrest Farr. It can not be ascertained who fired the first shot, as reports are very conflicting.

BUFFALO BILL ARRIVES.

Some of His Indians Put in Irons on Ship-board for Hauling a Rump.

NEW YORK, May 20.—The Persian monarch arrived from Liverpool to-day, having on board Buffalo Bill and his Wild West show. The white men were all tanned by the exposure to the weather, and the Indians—some of them—were still hanging over the railing casting up accounts. The steamer was met by a tug loaded with friends of Buffalo Bill, and the brass band which had been hired by the reception committee gave them the best music that they had in their horns. The steamer steamed up to Staten Island where the whole show disembarked and went direct to the summer show-ground at Erasmus. It appears that before sailing from Liverpool some well-meaning English friends distributed some fire-arms and Spotted Eagle Flat Iron, a Heap and Heap of Bears gave the police a great deal of trouble, and on board Out West, Harry Bird and Seven Up had to be put in the stocks for some time.
